

This urbane range of doors creates an undeniable statement of style. Yet beneath the smart exterior there's a tough interior, able to resist noise and moisture. Employing Corinthian's UltraCore™, solid construction and signature square corner rout, Euro doors feature deep bevelled routing. And now with the new Super-slim sidelight option it's even easier to include sidelights in your entrance set. Available pre-primed ready for painting or in exotic African Cherry veneer for staining, so you can create your own aesthetic sizzle.

*PEURSL 701 available in standard (400mm wide) and the new Super-slim (198mm wide) sidelight option.

UltraCore™ is a highly moisture resistant substrate. Accredited independent testing by JELD-WEN® Research & Development, Chiloquin, USA, places Euro's UltraCore™ into a league of its own. Citing significant increases in resistance to moisture uptake – resulting in longer life, better operation, as well as benefits in sound and thermal transmission – Euro is the new standard in timber doors.
